About me

Building upon a foundation laid in the open-source community – particularly contributions to Node.js – I carved out a niche for myself as a software engineer with a forte in enhancing Developer Experience (DX). This path led me to Transloadit, where I was able to further my career and gather some experience in cloud computing. My strength lies in creating tools that simplify and improve the development process, a passion that continues to drive my work in the tech industry.

Skills

- 🎯 Autonomous
- ✏️ Versatile
- ⚡ Creative mind
- 🎧 Focused
- 📚 Resourceful
- 🔥 Enthusiastic

Hobbies

- 🎹 Piano
- 🌍 Abroad Travels
- ☕ Coffee

Experience

Open-source contributions — On my free time and on company sponsored time
📅 Since October 2020

🐙 Node.js (TSC member)	🌐 nodejs/node	🌐 nodejs.org
🔑 Caritat (Lead maintainer)	🌐 nodejs/caritat	
👁️ V8 (Occasional contributor)	🌐 v8/v8	🌐 v8.dev

Transloadit — Working full-time remotely
📅 Between June 2021 and September 2024

🏢 Transloadit (Full-stack developer)	🌐 transloadit.com
🐶 Uppy (Web developer)	🌐 transloadit/uppy uppy.io
✳️ Nix (Maintainer of nodejs packages)	🌐 nixos/nixpkgs nixos.org

Earlier experiences
📅 Between April 2018 and May 2021

🛒 eComas (Built their website and some internal tools)	🌐 e-comas.com
⚡ Schneider Electric (Web Programming Engineer and Data Analyst)	🌐 se.com

Education

Groupe ESEO (Graduate Electronics Engineering School) — Engineering degree
🎓 2018 | 📍 Angers, France

French baccalauréat (A-level)
🎓 2013 | 📍 Bordeaux, France
